PROPERTY PROGRAM

DPS Welcome Information

The DPS Welcome Screen/Home tab, is the first screen you will see when logging into DPS. It will identify who you are and your branch of service.

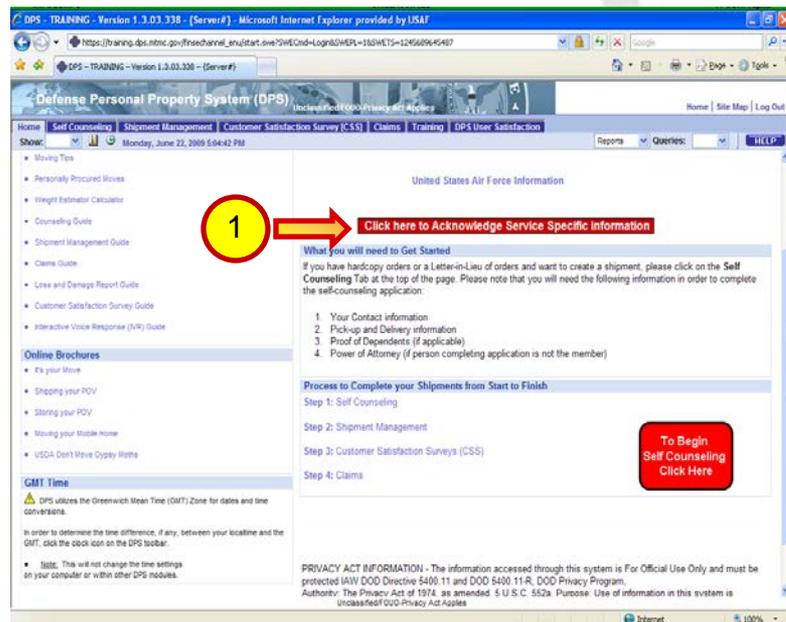

If this is your first time logging in, you will need to read the Service Branch information before proceeding to any other tabs. To do this, click the service branch information link directly under your Welcome message. (1)

If this is not your first time using DPS, you will already have access to all of the tabs. Please note, however, if the service link information changes, you will need to read/acknowledge it again, before proceeding to any tabs.

DPS Welcome Information

When you click on the service information link, a pop-up window will appear. You can review the information provided at this time, or later if you wish. When done, close the window.

After you close the window, DPS will then present a red acknowledgement block (1) directly under the service information link. Click the red block to complete the service requirement, and proceed in DPS.

DPS Welcome Information

That completes the process for the welcome information page (Home tab) in DPS. You will now have access to all of the other tabs needed in the system.

Please take time to review some of the supplied links and brochures on your home tab. Many of these may answer some of your questions, or provide you with information that you were not aware of and can use later. There is a lot of great information on this tab that is no more than a click away.
